

TCB 2023 - Submission Form: Code Attribution and Reference Declaration

By submitting this form, you hereby confirm that all code submitted by you is your original creation. This includes the logic, algorithms, and implementation details.

If you have utilized any code snippets, libraries, or external resources during the development process that were not solely authored by you, you are required to provide proper attribution in this form by submitting a comprehensive list of references and links to the sources from which you have borrowed or referred to code. (Example: videos, tutorials, blogs, articles, or StackOverflow answers referred to, or ideas borrowed from reference apps, etc.)

There is nothing wrong with borrowing a little code or getting some inspiration :) But not attributing the sources will be considered as a case of plagiarism, which is strictly not entertained.

Please do comply with the code attribution; the purpose is to ensure transparency and maintain the integrity of the hackathon. It promotes respect for intellectual property and encourages a culture of collaboration while upholding originality in coding.

Enter your Team Name *

Only one participant should submit the form.

Team Name: INT_WIN

Link to your source code *

Make sure the link is publicly visible (try opening the link in incognito mode). You may choose to upload a ZIP file of your project on your Google Drive (or any other cloud storage) or keep it in a public repository on any platform like GitHub.

Source Code Link: [Your Source Code Link]

Optionally, you may choose to include a README.txt in your submission to mention any comments or steps on how to execute, etc.

Attributions *

Please declare the links from which you have referred or code borrowed from. This includes any videos, tutorials, blogs, articles, or StackOverflow answers referred to, or ideas borrowed from reference apps, etc.

Attributions:

[Reference 1]: [Link to Reference 1]

[Reference 2]: [Link to Reference 2]

[Reference 3]: [Link to Reference 3]

... [Add more if necessary]

Thank you for respecting intellectual property rights and contributing to a fair and innovative hackathon environment! Good luck with your submission!
